Express Mail Receipt No. EV 396913053 US

German Patent No. DE 4206490, and Japanese Patent Nos. 61024158 and 07022038, are believed to be relevant only to the extent that they define the state of the art, which is not considered to be of particular relevance.

In the judgment of the undersigned, portions of the listed references may be material to the Examiner's consideration of the presently pending claims. However, the references have not been reviewed in sufficient detail to make any other representation and, in particular, no representation is intended as to the relative importance of any portion of the references. This statement is not a representation that the listed references have effective dates early enough to be "prior art" within the meaning of 35 U.S.C. § 102 or § 103.

Please apply any charges or credits to Deposit Account No. 19-0733.

Respectfully submitted,

Date: January 22, 2004
